# RIGGED

## THE GAME IS

My point in this revelation? This game is rigged in every area of life, including finance, government, society, health, everything. God made it, and He makes the rules.

After losing every game and figuring out it's fixed, you don't keep throwing your money at a rigged game. You'd be guaranteed to lose every time. If you wouldn't do that with your cash, why would you do that with your soul? You can tell just by looking around at the complexity of nature and creation that there is a higher power. Quit pretending there is no God and wake up to reality. He is real, and he reveals Himself through the Bible, and what's more

**1. Admit you are a sinner and need to be saved from hell.**  
*For God so loved the world, that he gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life. (John 3:16)*

**2. Believe that Christ died, shed his blood for your sins, and rose again from the grave.**  
*For the wages of sin is death; but the gift of God is eternal life through Jesus Christ our Lord. (Romans 6:23)*

**3. Call upon the Lord to forgive you of your sins and save you.**  
So we can try to cheat our way in by being a good person but that only further offends this perfect God. He's already covered our tab by sending

*For whosoever shall call upon the name of the Lord shall be saved. (Romans 10:13)*

the only perfect person, his Son, to die for us so that we wouldn't have to go to Hell. He made it easy for us, because He still loves us, despite our sin. You will stand before this God one day, and without having asked Jesus to save you from your sin and vouch for you in heaven, you're on your way to Hell.

We're not perfect. Nowhere reveals Himself through the Bible, and what's more he "now commandeth all men everywhere to repent" - Acts 17:30. Why? Because we've offended Him with our sins. We're not perfect. Nowhere close. So we can try to cheat our way in by being a good person but that only further offends this perfect God. He's already covered our tab by sending

## THE GAME IS

**I'm going to tell you something startling that could change the way you look at the game forever.**

Ever been to bustling Sky City Casino? Pick up a deck of cards in Blackjack or toss the dice in craps or roulette? It's different every time, sometimes you win, sometimes you lose. But the thrill always comes strongest when you win.

That's why you play.

If you're honest, most times you walk away from those tables with a much lighter wallet. Partly because you lost yourself in the heat of the game, and partly by making rash bets to try to win back what you've lost. You end up losing even more before angrily pushing away from the table or resigning to your loss and going home.

You and I both know that's the sad story for millions of people. I personally have had a taste of that experience.

I've met quite a few doormen, waiters and others who lost everything they had and wound up doing menial work in the graveyard of their finances.

Thank God, I figured it out. THE GAME IS RIGGED!

Ask any hotel operator, any dealer or pit boss, and they'll readily confirm that the games are set up with the odds definitely and irrevocably in favor of the establishment. That's how they can keep building bigger and bigger hotels and louder and more lavish casinos. It's with the millions and billions that people leave at the tables and machines.

But you knew that already. That's not the revelation I'm referring to. I'm talking about life itself. I'm talking about the world and everything in it. I'm talking about you and me, our futures, our businesses, our governments – everything!

The game is rigged. The One who created the worlds, who breathed into creatures in His own image the breath of life – the One who hung the stars and other planets and spun this planet on its course around the sun – this One is the owner of the establishment. He makes the rules. Rules that are heavily weighted in His favor, designed to accomplish His purpose in creation, rules that not only must be obeyed but severely punish anyone who disobeys or takes them lightly. Just like the casino cameras and

casino cameras and security keep you from navigating around the rules of the house and punish you when you do, we can't get around God's rules either.

You may never have met the owner of a casino, but you know he exists – and what he says goes in his establishment. There are serious consequences for any cheater.

It's just that way in the game of life. The rules are fixed, and the game is rigged. If you think the law of gravity as irrelevant, try stepping off your roof. You'll find it works just as it always has, every time, no exceptions. Same with the law against blasphemy. *"Thou shalt not take the name of the Lord thy God in vain"*, the Lord said. Breaking it warrants a serious penalty, much worse than time in jail.

**So where's the up side? How do you win?**

That's the great thing about all of this. The Owner wants us to know all the laws, the rules of the game, and He even wants to show us how to do things the way He intended.

In the Psalms and other places, He mentions *"hanging the circle of the earth"* on *"nothing"*. Copernicus and Vesalius discovered that the sun is the centre of our planetary system and that the earth revolves around it. This was counter to the religious and scientific opinions of their day, but they were right and the opinions wrong. They didn't create those facts – they just discovered them. These facts were already written in the Bible, thousands of years before modern science discovered them. The One who wrote the Bible is the same One who created the universe!

It was the same situation with Pasteur, Isaac Newton, Madame Curie, Albert Einstein, Stephen Hawking and even Ben Franklin, Edison, Bell,

Marconi and countless others. The contributions they have made to the modern world first came from their discoveries of the way things work.
